COSMETIC TATTOO AFTER CARE

- ALWAYS wash your hands before touching the area.
- APPLY Bepanthen 3-4 times daily for 14 days
- APPLY Vaseline to the area prior showering
- AVOID soaps, cleansers and active skincare for 14 days.
- AVOID makeup to the area.
- NO direct sunlight for 2 weeks.
- NO excessive heat, including steamy showers, saunas and sweating for 14 days.
- Some itching is normal, however DO NOT SCRATCH, this will remove the pigment and may cause scarring.

Pigment may darken slightly and you may notice some pigment dropping out, this will be touched up on your 4-6 week follow appointment.

FOR ANY ENQUIRIES OR CONCERNS PLEASE CONTACT THE CLINIC.
